

DR. EFIFIE UCHECHUKWU EMMANUEL

MBBS, MPH.

+2348064621166 | Efficiency4me@gmail.com | Abuja (FCT), Nigeria

PROFESSIONAL SUMMARY

Results-driven Public Health Physician (MBBS, MPH) and program management professional with over 14 years of experience in strategic leadership and project coordination for complex, multi-state, donor-funded initiatives (CDC-PEPFAR, USAID, Global Fund, NHIA). I have proven expertise in managing large-scale program implementation, including designing and managing M&E frameworks for infectious disease control and coordinating regional maternal health quality improvement. My strengths lie in program coordination, high-level stakeholders' engagement for health system strengthening, institutional and regulatory alignment, and leading operational quality assurance and improvement activities. I leverage advanced data analysis skills (Excel, SQL, R, Python) to drive performance tracking, risk identification, and implement innovative solutions to strengthen health systems.

PROFESSIONAL EXPERIENCE

❖ **Regional Program Manager, North Central Zone, Nigeria** | 1st March 2025 to Date
Independent Evaluators – National Health Insurance Authority (NHIA)

- Provide strategic leadership to drive maternal and neonatal quality improvement initiatives across multiple hospitals.
- Work with facility-based teams to analyse maternal health data and implement evidence-based quality improvement strategies aimed at reducing maternal mortality.
- Apply and monitor the use of treatment protocol checklists and audit tools to conduct quality assurance and track adherence to standards for maternal care.
- Engage key institutional stakeholders, including Hospital Management Boards (HMBs), State Health Insurance Schemes, and facility management, to ensure the smooth and sustainable running of the Comprehensive Emergency Obstetrics and Neonatal Care (CEmONC) program.
- Support state and hospital teams in interpreting clinical data and conducting root cause analyses, tracking progress through dashboards and performance reviews.
- Align maternal care quality with health financing mechanisms, specifically by facilitating the resolution of claims-related issues and standardizing processes to strengthen service delivery and efficiency.

❖ **State Coordinator, Federal Capital Territory (FCT), Nigeria.** | 5th February 2024 to 21st February 2025

Banyan Global (USAID Health Workforce Management Activity (HWM) Project)

- Led the HWM FCT team, overseeing planning, budgeting, and resource allocation to meet strategic priorities in line with USAID and FCT Administration guidelines.
- Spearheaded the integration of FCT activities with national goals by coordinating with federal stakeholders, including the Federal Ministry of Health (FMOH) and the National Primary Health Care Development Agency (NPHCDA), to align local HRH strategies with national health policies.
- Provided high-level technical assistance to strengthen HRH governance systems and institutional development, supporting national efforts to improve workforce planning and regulatory frameworks.
- Engaged with national regulatory bodies; Community Health Practitioners' Registration Board of Nigeria (CHPRBN) and the Nursing and Midwifery Council of Nigeria (NMCN) to drive efforts for full accreditation and restructuring, in alignment with national policies and to elevate competency standards in FCT's pre-service health training institutions.

- Utilized data analysis tools to monitor key performance indicators and provided actionable insights and guidance for program improvement.
 - Trained HRH Managers and stakeholders on HRH M&E tools; Integrated Human Resources Information System (IHRIS) and techniques to enhance data collection, reporting, and utilization for data-driven decision-making.
- ❖ **State Program Manager, Delta State, Nigeria | 10th October 2022 to 2nd February 2024**
Excellence Community Education Welfare Scheme (ECEWS). [SPEED Project (CDC-PEPFAR)]
- Led a multi-disciplinary team of 54 full-time and 364 ad-hoc staff, implementing integrated health interventions across HIV/AIDS, TB/HIV and STIs programs.
 - Managed MOUs, sub-grants, and Service Level Agreements (SLAs) with partner organizations, ensuring collaboration and adherence to program objectives.
 - Led program transitions and start-ups, coordinating operations across 56 service delivery facilities (SDFs) and 13 sub-grantees.
 - Coordinated health system strengthening initiatives, promoting program sustainability, and integrating health programs with the Contributory Health Insurance Commission.
 - Facilitated data collection, analysis, and reporting to ensure strict compliance with CDC-PEPFAR guidelines, maintaining technical dashboards for decision-making.
- ❖ **Deputy State Program Manager, Lagos State, Nigeria | 12th April 2021 to 29th September 2022**
Centre for Integrated Health Program (CIHP) [PEARL Project (CDC-PEPFAR)]
- Provided direct technical leadership to a multidisciplinary team of 90 full-time staff and 384 ad-hoc staff on program target achievement and resource management according to Funder's guidelines.
 - Delivered technical and programmatic leadership in Comprehensive HIV Program implementation, driving integration with TB, Hepatitis, and NCDs.
 - Coordinated technical teams and partners, stakeholder management including the Lagos State Government, to achieve sustained 97% HIV Viral Suppression rates among over 76,000 clients across 9 LGAs.
 - Conducted routine Data Quality Assessments (DQA) and guided the development and execution of the state technical program workplan.
- ❖ **Senior Specialist, Clinical Services/Sub-Office Team Lead, Delta State, Nigeria | 20th December 2019 to 9th April 2021**
CARITAS NIGERIA [4GATES Project (CDC-PEPFAR)]
- Led Care and Treatment activities, overseeing technical program implementation, local resource allocation, stakeholder engagement, and program execution in the Warri Sub-region.
 - Provided technical guidance to optimize HIV case-finding efforts statewide, including scaling up community initiatives across 25 LGAs, including riverine areas.
 - Developed and implemented M&E framework to monitor and track the implementation of HIV case-finding initiatives across 25 LGAs.
 - Supported the development and refining of program materials such as clinical guidelines, protocols, algorithms, and job aids for HIV and STI prevention and treatment.

❖ **State Team Lead**, Enugu State, Nigeria. | 8th, June 2019 to 30th, June 2019 (End of Contract)

Centre for Clinical Care and Clinical Research in Nigeria (CCCRN) [UNICEF Funded]

- Liaised with State Immunization officers, NPHCDA, and FMOH; served as the project representative.
- Coordinated a Quality Physical Vaccine Stock Count and Validation exercise across 185 health facilities using Open Data Kit (ODK).
- Implemented an M&E framework to track vaccine stock counts and facilitate reporting aligned with the Globally agreed “Dashboard for Immunization Supply Chain (DISC).
- Supported stores to arrange products according to the Earliest Expiry Earliest Out (EEFO) principle and retrieved all expired vaccines vials, including tOPV and mOPV2.

❖ **Sub-Zonal Coordinator, Field Implementation**, Southeast Zone, Nigeria. | 23rd, April 2018 to 31st March 2019

University of Maryland, Baltimore - Maryland Global Initiative Corporation, Nigeria (UMB-MGIC) [Nigeria AIDS Indicator and Impact Survey (NAIIS) Project]

- Collaborated with the Federal Ministry of Health (FMOH), National Agency for the Control of AIDS (NACA), State Agency for the Control of AIDS (SACA), and State Ministry of Health (SMOH) on the recruitment and training of 320 Field Staffs for the NAIIS survey.
- Engaged a wide array of stakeholders including State Ministries of Health (SMOH), Community leaders, religious leaders, security apparatuses, and the media across South-Eastern States to secure buy-in and ensure smooth, active participation in the survey.
- Supervised field activities to ensure timely collection of quality survey data and preservation of collected sample integrity.
- Coordinated, managed, and provided supportive supervision to the field staff (Survey Team Leads, Field Counsellors, Interviewers, and Laboratorians) to ensure adherence to survey protocols, high-quality data collection, and preservation of collected sample integrity during the NAIIS field implementation.
- Provided Zonal level strategic direction and leadership in the planning and coordination of all survey related activities.
- Successfully completed field data collection for 14,140 households using Computer-Assisted Personal Interviewing (CAPI) Application within 6 Months.

❖ **State Technical Lead**, Kogi State, Nigeria. | 1st, March 2015 to 20th, April 2018

Centre for Integrated Health Program (CIHP). [Bridges Plus and PEARL Projects (CDC-PEPFAR)]

- Provided technical leadership and supportive oversight for services including Adult and Paediatric ART, TB/HIV collaboration, and Support to DR-TB.
- Led the process of full health service integration of hospital systems and other Program areas like Malaria, MNCH, STIs, and IPC in 9 of 11 supported facilities.
- Trained over 700 State and hospital Staff of the Nigerian Government on various thematic areas of ART and service integration program.

- ❖ **State Clinical Services Officer, Kogi State, Nigeria.** | 6th, January 2014 to 28th, February 2015
Centre for Integrated Health Program (CIHP). [Bridges Plus and SCOPE (CDC-PEPFAR), and Global Funds Projects]
 - Provided State level strategic directions, technical leadership, and supportive oversight to the Clinical Services Unit and all technical staff, ensuring delivery of quality HIV prevention, care, support, and treatment services.
 - Supervised multidisciplinary HIV and TB/HIV care and treatment teams at 19 secondary health facilities (including 4 Global Fund sites) and 175 Primary Health Care facilities.
 - Worked with State partners (Government, IPs, and CBOs) to establish and support sustainable integrated ART services with the mindset of ultimate State ownership and continuity of program services.

- ❖ **Senior Clinical Services Associate, ART, Kogi State, Nigeria** | 13th, May 2013 to 3rd, January 2014
Centre for Integrated Health Program (CIHP). [Bridges Plus and SCOPE (CDC-PEPFAR), and Global Funds Projects]
 - Led the ART team in the state and provided technical guidance to facility staff for effective delivery of HIV and TB/HIV services.
 - Liaised with the Central Thematic Lead to develop training materials and job aids to modify the existing model of care to suit current guidelines and SOPs.
 - Spear-headed the expansion of Comprehensive ART services through the activation of numerous ART service delivery sites with TB integration, including Global Fund Comprehensive sites.

- ❖ **Clinical Services Associate, Paediatrics (Consultant), Kaduna State, Nigeria.** | 2nd, January 2013 to 13th, May 2013
Centre for Integrated Health Program (CIHP). [Bridges Plus (CDC-PEPFAR)]
 - Assisted in the expansion and effective, quality integration of Paediatrics ARV treatment services into the routine activities of the supported facilities.
 - Served as a resource for the evaluation of ongoing paediatric care and treatment programs and the development of new and/or expanded programs for the care and treatment of HIV/AIDS in infants, children, and teenagers.

- ❖ **Site Coordinator/ ART Clinician and Medical Officer, Kogi State, Nigeria.** | 2nd, November 2010 to 30th, December 2012
International Centre for AIDs Care and Treatment Programs (ICAP, Nigeria) at Holley's Memorial Hospital Ochadamu.
 - Coordinated the running of the ART clinics, management of staff, and procurements within the facility.
 - Ensured and supervised the delivery of ART clinical services, including Paediatric and Adult ART, PMTCT services, and TB/HIV collaboration.
 - Participated in delivering medical and surgical services to both out- and in-patient clients of the hospital.

EDUCATION

Degree	Institution	Focus	Year Obtained
Master's degree (Msc. Data Science)	Rome Business School Rome	Data Science Management	September 2025 (In View)

Master's degree (MPH)	University of Western Cape, South Africa	Public Health	2017
Bachelor of Science (MBBS)	Nnamdi Azikiwe University, Awka, Anambra State	Medicine and Surgery	2007

KEY CERTIFICATIONS

- Google Data Analytics Professional Certificate; In View.
- Regional Training Centre for Health Research Course on Implementation Research on Infectious Diseases of Poverty; December 2024.
- Global Health E-Learning course on Human Resources for Health (HRH): Principles and practices; March 2024.
- Teams Management for Performance – Lead Frontier Partners (2023)
- Improving Health Care Quality – Global Health eLearning Center (2023)
- Health Workforce Productivity – Global Health eLearning Center (2023)
- Biostatistics in Public Health (Hypothesis Testing & Summary Statistics) – Johns Hopkins University (2022)
- Project Management in Global Health – University of Washington (2020)
