PROFESSIONAL SUMMARY

Data-driven Public Health Physician and Analytics Professional with 14+ years of experience leading large-scale health programs across Nigeria and a strong technical foundation in data analytics, statistical modelling, and machine learning.

Proven ability to transform complex datasets into actionable insights to support health system strengthening, program performance optimization, and evidence-based decision-making.

Experienced in data cleaning, transformation, exploratory analysis, dashboard development, and predictive modelling using Python, R, SQL, Excel, Looker Studio, Power BI, Tableau, and Google Colab. Recognized for stakeholder engagement, project management, cross-functional leadership, and capacity building, while coordinating multidisciplinary teams across donor-funded programs (CDC-PEPFAR, USAID, Global Fund).

SKILLS SUMMARY

- **Languages & Programming:** Python, SQL, R.
- **Tools & Platforms:** MS Excel, MS Power BI, Looker Studio, Tableau, R Studio, Google Colab.
- **Data Expertise:** Data Cleaning, Data Manipulation, Data Visualization, Inferential Analysis, Machine Learning Models, Data Quality Assessments (DQA).
- **Soft Skills:** Program/Project Management, High-level Stakeholder Engagement, Team Coordination, Capacity Building, Leadership, Health System Strengthening, Institutional Capacity Building.

WORK EXPERIENCE

REGIONAL PROGRAM MANAGER - Consultant | NHIA | Abuja, Nigeria | March 2025 – Present

- Provide strategic leadership for maternal and neonatal quality improvement initiatives across 42 hospital facilities.
- Analyze complex maternal health and Insurance Claims data to deploy evidence-based strategies, utilizing tools like Looker Studio, PowerBi and Excel to track performance metrics.
- Develop interactive dashboards and conduct root cause analyses to facilitate clinical progress tracking and drive actionable insights.
- Spearhead high-level stakeholder engagement with Hospital Management Boards (HMBs) and State Health Insurance Schemes to ensure sustainable program operations across 7 States.

STATE COORDINATOR | Banyan Global (USAID HWM) | Abuja, Nigeria | February 2024 – February 2025

- Designed and deployed dynamic MS Excel-based analytical tools and HRH dashboards, enabling government partners to visualize complex workforce trends, execute real-time, data-driven decision-making and generate Annual Human Resource for Health Profile Document for policy making.
- Spearheaded the extraction and analysis of programmatic KPIs, transforming raw datasets into actionable insights that optimized resource allocation, budgeting, and overall program efficiency.
- Strengthened data pipelines and reporting integrity by training managers on iHRIS and M&E frameworks, leveraging empirical evidence to align local deployment strategies with national health policies.

STATE PROGRAM MANAGER | ECEWS (SPEED Project) | Delta State, Nigeria | October 2022 – February 2024

- Directed and led end-to-end project operations for a cross-functional team of 418 staff across 56 facilities, ensuring all milestones met strict CDC-PEPFAR performance standards.
- Established a culture of data-driven governance by institutionalizing regular dashboard reviews, transforming raw site data into visual insights for executive decision-making.
- Managed complex project lifecycles, including budget oversight, sub-grants, and Service Level Agreements (SLAs) to advance health system strengthening.

- Utilized inferential analysis to monitor service delivery trends, identifying bottlenecks and implementing rapid course corrections across high-volume sites.

DEPUTY MANAGER STATE PROGRAM | CIHP (PEARL Project) | Lagos State, Nigeria | April 2021 – September 2022

- Directed a large-scale workforce of 474 personnel and managed complex project lifecycles, streamlining workflows to consistently exceed program targets and donor requirements.
- Championed data integrity through rigorous Data Quality Assessments (DQA), ensuring the reliability of large-scale clinical datasets for state-wide reporting and strategic decision-making.
- Transformed audit findings and performance trends into actionable workplans, facilitating stakeholder reviews that sustained a 97% viral suppression rate across 76,000+ clients.

SUB-ZONAL COORDINATOR | UMB-MGIC (NAIIS Project) | Southeast Zone, Nigeria | April 2018 – March 2019

- Directed large-scale data operations for the Nigeria AIDS Indicator and Impact Survey (NAIIS) project, managing 320 field staff and complex logistics to ensure 100% completion of survey targets across 14,140 households within a strict six-month window.
- Managed the end-to-end data collection lifecycle using CAPI applications, implementing real-time monitoring and cleaning protocols to ensure high-velocity acquisition and data integrity for national epidemic modelling.
- Facilitated strategic stakeholder engagement with national agencies and community leaders, aligning field activities with national timelines while maintaining strict survey compliance in challenging environments.

EDUCATION

- **Rome Business School** | Rome, Italy - Master's degree (MSc.) - Data Science Management | September 2025
 - *Python, R, Statistics, Data Lake/Warehouse, Machine Learning, RDBMS, Intro to Blockchain*
 - **Capstone Project:** *Predicting Antiretroviral Treatment Interruption Among HIV Clients in Nigeria: A Machine Learning Risk Assessment Model*
- **University of Western Cape** | Cape Town, South Africa Master's degree (MPH) - Public Health | 2017
- **Nnamdi Azikiwe University** | Awka, Nigeria Bachelor of Science (MBBS) - Medicine and Surgery | 2007

PROJECTS & PUBLICATIONS

Health Data Research & Inferential Analysis | 2017 - 2024

- Efifie U.E. et al. (2024). Study on HIV Status Disclosure and Treatment Adherence Amongst Support Group Members in Mushin Local Government Area (LGA), Lagos State. *International Journal of HIV/AIDS Prevention, Education and Behavioural Science*, 10(1), 29-37. <https://doi.org/10.11648/j.ijhpebs.20241001.13>
- Oral Presentation – Prevalence of anaemia in newly diagnosed adults infected with HIV in Kogi State, Nigeria - U. Efifie¹, F. Ogirima¹, B. Osibo¹, U. Zakari¹, B. Oyeledun¹ (1Centre for Integrated Health Programs). International Conference on AIDS and STIs in Africa (ICASA), Cote D'Ivoire, 2017.

CERTIFICATES

- **ALX Course on Data Engineering** | ALX Africa | In Progress
- **Google Data Analytics Professional Certificate** | Google | 2026
- **Implementation Research on Infectious Diseases of Poverty** | Regional Training Centre for Health Research | 2024
- **Biostatistics in Public Health (Hypothesis Testing & Summary Statistics)** | Johns Hopkins University | 2022
- **Project Management in Global Health** | University of Washington | 2020
